

HOW TO MEASURE AND CARE FOR YOUR "SHOWTIME" BLANKETS

For the Right Fit:

Using a flexible tape start at the center of the horse's chest (A) and measure around the part of the horse's shoulder along the barrel and to the center of the tail (B). Keep tape horizontal to the ground. SHOWTIME brand blankets require 6 inches added to that measurement. For example: If you measured your horse to be 90 inches then you will need to order a size 96 blanket.

Cleaning:

Fasten leg straps and Velcro® belly band fastener before washing. Wash in lukewarm or cold water using a mild detergent. DO NOT DRY CLEAN. Hang up to dry.

DO NOT dry on high heat. Use air dry only or low heat for only 5 minutes and then remove to let air dry.

Stock Colors for SHOWTIME Blankets and Shipping Boots:

Royal Blue, Hunter Green, Red and Burgundy all with white trim.

Any other color combination will be a custom order and will possibly require more time.
